SKILLS

- VHDL
- ML/DL (pytorch/keras)
- Git
- Linux
- Driver License

LANGUAGES

- French, N*ative language*
- English, *C1 level, advanced*
- Spanish, *B1 level, intermediate*
- Sign language, *Basic skills*

Hobbies

- Dance, *National competition, club organization*
- Volunteering, *Distribution at Restos du Cœur st-Orens center*
- Piano, *Classical, Movies*

Summary

As a final-year student at ENSEEIHT, an engineering school in the heart of Toulouse, I am seeking an end-of-study internship in the field of digital electronics.

I am conscientious and hard-working, quick to grasp new concepts and constantly seeking creative solutions.

Professional Experience

Internship
INRAE | 2025

A 10-week internship aimed at developing deep learning models for processing experimental images of sunflower heads.

Manual Internship
INRAE | 2024

A 6-week internship aimed at experimenting with manual and agricultural work activities.

Internship
LAAS-CNRS | 2023

A 6-week internship designed to introduce me to the professional environment of a research laboratory. Prototyping algorithms, studying algorithm performance, writing articles and Teamwork

Education

ENSEEIHT
Toulouse | France | sept 2023 – now

Engineering school affiliated to the INP group.
Department of Electronics, Electrical Energy & Automation (3EA)
Option : Artificial Intelligence for Information Processing (IATI)

FER
Zagreb | Croatia | sept 2024 – Jan 2025

Faculty of Electrical Engineering and Computing, University of Zagreb. Study semester abroad focusing on digital electronics and information theory.

La prépa des INP Toulouse
Labège | France | 2021– 2023

Two years preparatory course for selective engineering school entrance exams for the INP group of engineering schools, Institut National Polytechnique.
